

Minutes of One Tree Hill Allotment Society Extraordinary General Meeting 2019

Date: Thursday 9 May 2019

Present: There were 12 present.

Apologies: Were received from 19 plot holders

1. Motions

- a. This meeting agrees to increase Annual Subscription to £50 per annum from September 2019 for a full plot.
Passed unanimously (including 6 in absentia)
- b. This meeting agrees that from July 2019, the use of glyphosate or glyphosate based products will be disallowed on One Tree Hill Allotments. This includes both use by ploholders and by contractors or other parties. This meeting agrees to amend para 2 of section 22 of the Licence to:
“Asbestos, fibreglass, **glyphosate** and other hazardous materials must not be brought on to the site. If any are found, the plot holder will be notified in writing and must remove immediately. If the materials are not taken away by the ploholder the committee will remove the items and issue an immediate Notice to Quit.
Passed unanimously

2. Discussion

Following on from the motions - a discussion was held about the desire to reduce the use of herbicides and pesticides to a minimum. Concern was raised in particular about the overuse of slug pellets and nicotinamides and other systemics. It was agreed that this should be a matter for discussion at the AGM and the Committee would prepare a document / motions for that meeting addressing these issues

Examples of products containing Glyphosate

4. Systemic Herbicides

Systemic herbicides are non-selective and non-residual. They differ from contact herbicides in that when applied to the foliage the herbicide moves down into the root system of the weed. This makes systemic herbicides ideal for controlling deep-rooted perennial weeds. The most effective time for spraying glyphosate is mid- to late summer when the weed has a large surface area. Some stronger formulations are marketed as stump killers and are usually applied in the dormant period.

**These products work by both contact and systemic action*

***These products contain a selective broad-leaved contact weedkiller as well as glyphosate*

Active Ingredient	Proprietary Name	Manufacturer/Source of Supply	Formulation
glyphosate	Doff Tree Stump & Tough Weedkiller	Doff Portland Ltd	soluble sachet
glyphosate	Knockdown Super Strength Glyphosate Weedkiller	Doff Portland Ltd	soluble sachets
glyphosate	Glyphosate Weedkiller	Doff Portland Ltd	liquid concentrate
glyphosate	Maxi Strength Glyphosate Weedkiller	Doff Portland Ltd	liquid concentrate
glyphosate	Glyphosate Weedkiller (RTU)	Doff Portland Ltd	ready-to-use spray
glyphosate	Path & Patio Weedkiller (RTU)	Doff Portland Ltd	ready-to-use spray
glyphosate	Job done General Purpose Weedkiller	SBM Life Science Ltd	concentrate
glyphosate	Job done General Purpose Weedkiller (RTU)	SBM Life Science Ltd	ready-to-use
glyphosate	Job Done Tough Weedkiller	SBM Life Science Ltd	soluble sachets
glyphosate	Job done Tough Tree Stump Killer	SBM Life Science Ltd	soluble sachets
glyphosate	Job Done Path Weedkiller	SBM Life Science Ltd	soluble sachets
glyphosate	Fast Action Roundup (RTU)	Scotts Company (UK) Ltd	ready-to-use spray
glyphosate	Roundup Gel (RTU)	Scotts Company (UK) Ltd	gel
glyphosate	Roundup Tree Stump & Rootkiller	Scotts Company (UK) Ltd	liquid concentrate
glyphosate	Roundup Ultra	Scotts Company (UK) Ltd	liquid concentrate
Active Ingredient	Proprietary Name	Manufacturer/Source of Supply	Formulation
glyphosate	Weedfree Concentrate	Vitax Ltd	liquid concentrate
glyphosate	Weedfree (RTU)	Vitax Ltd	ready-to-use spray
glyphosate	Deep Root Ultra Tree Stump & Weedkiller	Westland Horticulture Ltd	liquid concentrate
glyphosate	Resolva Xtra Tough	Westland Horticulture Ltd	ready-to-use
glyphosate	Resolva Xtra Tough Concentrate	Westland Horticulture Ltd	liquid concentrate
*glyphosate/diquat	Resolva Path & Patio	Westland Horticulture Ltd	liquid concentrate
*glyphosate/diquat	Resolva Path & Patio (RTU)	Westland Horticulture Ltd	ready-to-use spray
*glyphosate/diquat	Resolva 24H Liquid Concentrate	Westland Horticulture Ltd	liquid concentrate
*glyphosate/diquat	Resolva 24H (RTU)	Westland Horticulture Ltd	ready-to-use spray
**glyphosate/ pyraflufen ethyl	Weedol Ultra Tough	Scotts Company (UK) Ltd	liquid concentrate
**glyphosate/ pyraflufen ethyl	Weedol Gun! Ultra Tough (RTU)	Scotts Company (UK) Ltd	ready-to-use spray

5. Residual Herbicides

Residual herbicides (used in combination with the systemic herbicide glyphosate) can be soil-acting or foliar-acting, the herbicide remaining in the soil for weeks or months, depending on the active ingredients' properties. Some can be used around plants, whereas others can only be used in uncultivated areas and/or hard surfaces. Check the label before use.

* Option on the label to use around large shrubs, trees and woody plants

Active Ingredient	Proprietary Name	Manufacturer/Source of Supply	Formulation
*glyphosate/diflufenican	Job done Tough Weedkiller (RTU)	SBM Life Science Ltd	ready-to-use
*glyphosate/diflufenican	Job done Path Weedkiller (RTU)	SBM Life Science Ltd	ready-to-use
*glyphosate/diflufenican	Bayer Garden Path & Drive Weedkiller	SBM Life Science Ltd	concentrate
*glyphosate/diflufenican	Weedol Pathclear Weedkiller	Scotts Company (UK) Ltd	liquid concentrate
*glyphosate/diflufenican	Weedol Pathclear Weedkiller (RTU)	Scotts Company (UK) Ltd	ready-to-use spray
